As a food vendor your site will include an allocated space set up with ground protection, a power supply\*, AWOP unit and any required event food license.

There is a processing fee charged via AWOP, (which we now cover in your total turnover %) however you don't need to worry about eftpos, cash floats or any of these hassles. Units are easy to use and training / support is provided.

Funds are transferred direct to you from AWOP the week following the event.

Beers at the Basin will carefully consider each vendors booking before accepting them as a vendor for the event to ensure quality and variety.

Each 3m x 3m "bar marquee" will operate separately with the ability to personalize the bar set up to each vendor.

### Supplied for the Set Up

All beverage sales during the event are managed under the Beers at the Basin Special License and will be at the set price of \$7.50 - \$8.00 depending on ABV% for beer and cider, and \$8.00 for wine and seltzer. We will supply most of the infrastructure as listed below including the marquee to create a working bar - but will require you, as the vendor, to set up the bar and branding to personalize this for your brand.
